Señores Runciman y Cia

Muy Sres. mios
Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Flu do Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

(Porter 'Stout')
Pig Brand

The only one recommended by Physician because of its strengthening and very nutritious qualities.
The results of its use in cases of debility induced by accidental causes are marvellous. This Stout becomes assimilated with the blood in a more efficacious manner than any solids do, and it thus fortifies exhausted organisms. In cases of maternity its use is of the highest importance, for which this brand is universally recommended by the most distinguished members of the Faculty.

NOTE—Beware of an imitation, being a copy of the Washington Morton registered label, which may be distinguished by the name Morton being changed to Merton. The forgery of Parry & Co.'s signature is very badly done, but at a short distance it may easily pass as gennine. The general appearance of this forgery is a very similar to the genuine, that a careful examination is necessary to detect the fraud. Once the wine is tasted, the deception is quite apparent.

HAVAS' AGENCY

Paris, 3rd

Government interpellated to-day in Deputies respecting foreign policy. Discussion terminated in vote of confidence.

EUROPEAN MONEY MARKETS

The reviews by the leading European financial journals of the money markets for the year 1880 really form more interesting reading than the three volumes of Endymion. The U. States this year strikes at every money market in the old world by calling up its debt and reducing the interest on its National debt to 3.65 cts. per cent which figure is adopted for convenience, it being one cent a day interest on one hundred dollars, a computation intelligible even to the rudest Western farmer. It is presumed that France will imitate the States and reduce the interest on its Rentes, and, but for the many untoward expenses which the English treasury has had to meet, Mr Gladstone would doubtless have caught Consols at par, to facilitate a lowering of the interest on the National debt. We advert to these matters to show their bearing on the high interests paying stocks of this country, and the strong probability that capital so ill paid in Europe will find its way out to these countries to invest in lands cattle and shares. In the year 1880, the Bank of England rate was more stationary than in any other year for 30 years past: only two changes made, that from 3 to 2½ per cent on 17th June, and from 2½ back to 3 per cent on 9th Dec. English trade during the year showed a great recovery; we give the figures for imports for 11 months in the following years.

1873.....	£337,250,000
1877.....	361,046,000
1878.....	338,983,000
1879.....	326,806,000
1880.....	375,773,000

and we find in the export tables for 1880, the following increase—

Cotton goods increase	£11,000,000
Iron and steel do......	9,000,000
Machinery do.........	1,500,000
Coal do..............	1,000,000

The financial year closed on 31st last March with a deficit of 8 millions sterling; Mr Gladstone added one penny to the income tax, and since then the revenue has been satisfactory.

The *Investor's Manual* says:—

"Not the least striking feature of 1880 has been the rapid increase in the volume of new joint stock companies. Some foreign Government and more Colonial loans have made their appearance; while our leading home railways have allotted fair amounts of new stock. All such issues have been very rapidly placed. But it is a sign of the time that the list of new companies, which had been so restricted since 1874, has this year reached a considerable length, and, judging from the great extension of such applications during the past few months it would almost appear that a period of excessive activity like we had in 1872, 1873, and 1874 is approaching us. In this respect the most prominent feature of the year has been the introduction of Indian gold mines, based to a great extent upon the report to Government of Mr Brough Smyth, and, though not one of them has yet earned a farthing in dividends, the number of them floated has been very large. Other mining companies, land and land mortgage companies, and meat importation companies (which last may possibly prove one of the coming manias), have all had a fair number of representatives, while a good leaven of new home and foreign railways, the latter chiefly Trans-Atlantic, and a few banks are all which call for particular mention, with the exception of the Panama Canal undertaking, which has at last been floated, with what prospects of success it will take many years to determine. Russia, Norway and Sweden, Portugal, India, the Cape, Victoria, South Australia, Ceylon, Queensland have been the principal borrowing States; and the result of these combined applications is an increase of over 100 per cent in the capital creations over the corresponding figures in 1879, and of over 60 per cent in the actual money payments thereon."

The United States stocks advanced during the year 10, and 150 millions sterling. U. States stocks fall due in 1881 and will be paid off and a new and lower interest bearing stock issued. That which, however, most claims attention are the remarkably changed returns of the Bank of England, Bank of France, and Bank of Germany during the year, here are the figures.

Bank of England—

	Jan. 1st 1880	Dec. 23 1880
Cash on hand..	£27,601,562	24,741,999
Notes circulatio.	27,634,235	26,117,325
Deposits.......	37,998,877	31,734,840
Reserve........	14,967,327	13,624,674

Bank of France—

Cash on hand..	£78,761,000	70,703,000
Notes..........	93,711,000	95,841,000
Deposits........	27,449,000	22,015,000

Bank of Germany—

Cash on hand..	£26.968,000	27,486,000
The three banks—		
Cash on hand..	133,330,000	123,125,000

The following shows the amount due 31st Dec. 1880 on Argentine loans—

Loans	Issue	Due
6 p. cent 1868 loan..	£2,500,000	1,480,600
Public Works loan...	4,122,400	4,202,182
Hard Dollars.........	4,500,000	3,202,182
B. Aires 1824........	1,000,000	660,000
Do 3 p. cent........	1,500,000	550,000
Do 6½ 1870........	1,034,700	383,700
Do do 1873........	2,040,800	1,907,100
Entre Rios..........	226,800	166,800
Santa Fe............	300,000	244,400
Total........	19,224,700	13,294,582

These figures show how rapidly this Republic is paying off its indebtedness. In the stock exchange list before us, except the U. States there is no country in the world paying off its National debt faster than the Argentine Republic. No wonder that Hard Dollars and Treasury notes are now bought freely here for sale in London.

THE NAVAL REVIEW.

The review of the Argentine squadron off Colonia on Thursday was a very creditable show for an infant naval power, and gave promise of better things to come. The squadron was under the command in Chief of Commodore Py, with Lieut.-Colonel Golditz, as Chief of Staff and Captains Flores and Lartigue and Lieutenants MacCarthy and Muller as Aides-de-Camp. The Commodore, Colonel Solier and Mr. William Foley, Secretary of the Second Naval Division, formed the Committee named to report on the day's evolutions.

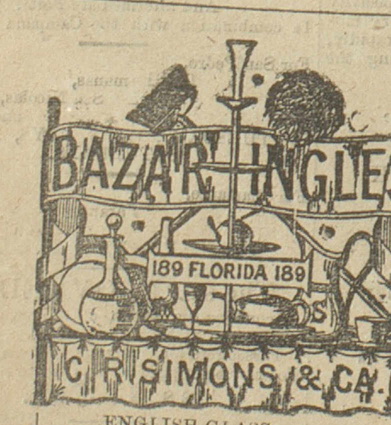

At 8 o'clock Commodore Py, followed by a brilliant staff, which included Cols Obligado and Masson, Majors Howard, Mangano, Puch and Cueli, Captains Masson, Quiroga, Cabral and three Sub-Lieutenants, walked down the Mole. Then followed the Commissary-General of the Navy, the Director of the Artillery School and a number of civilians (mostly Press reporters) whose attire looked the reverse of attractive compared with the gold-laced throng that preceded them. The whole party put off for the Vigilante, which immediately went 'full speed ahead' for the Outer Roads, with her head to Colonia.

The tender lay-to near the ironclads Andes and Plata, and the Commodore and party went in succession on board each of these fine ships, which looked in apple-pie order for the occasion. The crews were exercised at musket and cutlass drill and other elementary exercises, which they got through creditably enough. The next thing was breakfast, which the captain of the Plata had served in a style that even a British flagship could not surpass. Sailors, no matter what their nationality, are never loquacious, so the speeches of the Commodore and the other officers who spoke were as brief and to the point as the words of command in a stiff squall: but 'en revanche,' the journalists present let off a deal of rhetorical fireworks, and, as a matter of course, did it well.

Gun-drill was then gone through by the crew. Three old pipes and a still older piece of a shop-counter, painted white, were then thrown overboard as targets, and the vessels moved away to a distance of 2,000 metres. Each ironclad was to fire seven shots, six with their 300 pounder and one with the 600 pounder. The Andes led off. The firing was poor, and the targets were not hit even once. The Andes made only two passable shots, the Plata three, the Constitucion one, and the Bermejo three splendid ones out of four. We would remind Commodore Py that the targets were quite too small and by no means the thing in any way: the men would do better perhaps with better targets.

At 7 o'clock p.m. the Commodore returned to the Mole. In future monthly reviews will be held.

Railway accidents have been unusually numerous of late. A woman was killed on the Western and a man on the Southern Railway on Friday. As usual the victims were solely to blame; but again, as usual the engine-drivers are in custody.

EDITOR'S TABLE.

Yesterday was a grand day for broiling a beefsteak or roasting a turkey in the open air, the terrific heat of the sun being equal to either operation. The barometer fell rapidly during the forenoon, and everybody was sighing for a rattling good storm to cool the ambient, but it came not.

The performance at the Politeama on Thursday night for the benefit of the British Hospital was extremely good and the attendance large, although it did not look so in such a vast 'salle.' The artists excelled themselves, and Mr Guillaume and his troupe deserve a vote of thanks from the British community. Sir Horace Rumbold Bart, H.M. representative, Mr Egerton, first Secretary of Legation, Consul Mallet's family, and most of the leading English residents were present.

Some of our native colleagues are off at a tangent again respecting West Coast affairs, and draw rather far-fetched inferences from the fact that Chile is now willing to grant peace to Peru if she can find a Government to treat with. Every day's delay on Peru's part will add so much to the war indemnity.

Hermann, the Wizard, though now at Montevideo in the flesh, must have been at some of his larks on Tuesday, by telegraph. Two of our evening colleagues declare that the 1.10 p.m. train on the Northern Railway broke down at Belgrano on that day. Unless Hermann did it, we are unable to explain it, as neither the manager of the line nor the station-master at Belgrano know anything of such breakdown.

The South Pole Expedition Committee met on Thursday night. Mr Calvo announced that the National Government will back up the Expedition as far as possible, and possibly lend a vessel.

A grand banquet will be given in the Florida Gardens to-morrow week, 14th, to the Governor elect, Dr Dardo Rocha.

There will be Mass, and sermon in English, to-morrow at San Francisco Church, at 1 o'clock, as usual.

At the review at Palermo on Thursday, the troops did very well, but only the infantry could manoeuvre, owing to the uneven ground. The troops did not start for their barracks till 8½ p.m., too long a hot day's work by far, considering that the regiments were on the ground at dawn. Many of the men were taken home in carts, tram cars, and on the artillery tumbrils, as they could not walk. The President of the Republic, in mufti, General Levalle and many other distinguished officers were present at the manoeuvres.

The first bit of news from the West Coast with even a tinge of peace in it that we have had for a long time came yesterday, viz., that General Baquedano opened the port of Callao to commerce on the 21st ult. The Callao merchants have had a 'malisimo rato', and Peru must be run dry of all kinds of goods, so a revival in trade may be looked for, if Pierola and the invaders come to terms, as is not unlikely.

The suburbs are going dancing mad. Another ball at San Fernando on Sunday next.

We offer Mr Burton, the enterprising news-agent, our apologies for a slip of the pen yesterday when announcing that he had all the latest home papers on sale. Slips *will* occur now and then between the ink-bottle (our 'Stylographic' was stolen a month ago) and the paper, as between the cup and the lip.

City Bondholders looked more cheerful yesterday than we have seen them for the last fifteen months past—all on account of a rumour that the Minister of the Interior and the Lord Mayor have at last hit on a way of paying them their overdue coupons. We believe there is something in the report.

The latest news from Paris is that the petty wine dealers there have asked M Gambetta to dine with them, and in return he has promised to look over the excellent law which provides vigorous punishment for the offence of watering wine, with the view (theirs) of giving his entertainers a loophole for doing so. It is said they intend giving Gambetta watered wine at the dinner, to prove to him how much superior it is to the pure article.

The *Southern Cross* announces that the Rev. Father Timothy, of the Order of Passionists, will leave for Europe on Monday, to bring out more priests of his order. We are most sorry to learn that the much esteemed Father John Leahy is in delicate health and has been ordered by his medical advisers a trip to Europe, to restore it: he will leave next week. We wish him a pleasant voyage and speedy and complete recovery.

According to the Cordoba papers, the storm there last Sunday was rather a formidable demonstration by the elements. A flash of lightning opened the ball, in the refreshment-room of the race course, by sending every soul in it spinning on the ground. Four were killed on the spot and burned to a cinder, and seven knocked senseless. The rain then came down in cataracts, and flooded the town for a time, but no further loss of life was reported.

A man was knocked down senseless and bleeding in Plaza San Martin on Thursday night, by a stone hurled with fatal precision from behind a tree. When the policeman on duty found the victim there was not a soul to be seen near him, the perpetrator of the outrage having disappeared in the darkness.

Lujan society has been greatly amused by a recent case before the Juez de Paz. A Mr. X, who is as diminutive and ill-favored as Nature could make him, passed before an open window at which a lady was seated, showing her two little boys some funny pictures, at which they were screaming with laughter. X thought they were laughing at him and summoned the lady before the Juez; she refused to go, but sent her eldest son to defend his little brothers. The cream of the joke was that the Justice treated the matter as seriously as if it was a capital offence, and heard a long discussion on it. X was metaphorically 'kicked out of court' amid loud cheers.

The following is Dr. Lausen's note to the Municipality, generously ceding 260 yards by 60 of his quinta on the Gauna Road for the new Boulevard. Dr. Lausen sets a noble example, which we hope will be extensively followed by other proprietors:—

Buenos Aires, Feb. 3d.

To the President of the Municipality.

Having seen that the new Boulevard contemplated by the Municipality will run through my quinta for 200 yards, allow me to offer the Municipality, as a gift, the necessary land, as I consider that such a Boulevard will be of immense advantage to the city.

Valdemar Lausen,

General Olascoaga was a little better yesterday afternoon, but pellet not extracted yet.

There will be a great land sale (by auction) in the Central Land Office on Monday, the 14th inst. Fifty-four leagues of well-situated camps will be offered and certainly sold on that day.

Dr. Vicente Fidel Lopez has just published an interesting work on the 'Origin of War and Revolution in the Argentine Republic.' The title is catching, and we anticipate pleasure in reading it more thoroughly, at our leisure.

There has been sorrow among the 'cent. per cents' in London, for the money lenders have sustained a grievous blow by the unexpected death of the presumptive heir to large and strictly settled estates, who had gone the utmost length of his tether in raising money on post obits. They had thought themselves perfectly secure, as the deceased gentleman was nearly forty years the junior of the possessor of the property, and the latter has for many years been in very precarious health.

The following news from London may interest tramway shareholders here. The substitution of air or steam for horses on the Buenos Aires tramways would enable the companies to establish dollar fares, while doubling the dividends:—"The latest motor is an air engine by Col. Beaumont of the Royal Engineers; it has been tried in England by a Government Commission, and the report of the London *Daily News* of the trial indicates that the Beaumont engine is a great success, and is likely to be used instead of steam on the underground railways."

In the London papers an advertisement has appeared from the comptroller of Her Majesty's stationery office inviting tenders for the year's waste paper, estimated at 1,500 tons. Now, as there are only about three hundred working days in the year, it follows that the daily amount of waste is five tons. Reduced to reams of fourteen pounds each, the average weight shows that 800 reams of paper are per day consigned to the waste-paper basket.

A child's 'bon mot.' A little lady was going to have her ears pierced for ear-rings, and, like most little ladies under similar circumstances, was very much afraid. Her mamma tried to reassure her by saying it was God's will. 'That cannot be, mamma. If God intended me to wear ear-rings he would have made the hole for them Himself.' Mamma was unable to answer this thoroughly sound reasoning.

TRAM CARS.

To the Editor of the *Standard*.

Dear Sir,

Can you enlighten us poor suffering mortals as to what has become of the Municipal decree, ukase, or whatever it is called, which was supposed to provide against the overcrowding of tramcars? Has it lapsed, like the wisdom of a good many of the city fathers, through fluxion of time, or has it strayed or been stolen?

Kindly take the matter under your wing when next visiting the Municipal halls, resuscitate the decree, and, above all, get the police to make it effective. It would be a good thing to oblige all the tramway companies to paint up conspicuously within cars the maximum number of passengers to be accommodated in each 'comfortably,' as well as the rate of exchange at which twenty stone old ladies are to be taken in relation to passengers of more slim dimensions. As it is no joke to have one of the former flop down wedgewise between and upon two of the latter, already in their own opinion sufficiently confined by their neighbours.

Yours truly,
One of Them.

ON 'CHANGE.

Feb. 4th, 1881

Patacons	29.35
Cedulas A	89¾
National Bank Shares	74
Bonos	¼ premium
National Bonds, 1863	83

The gold market ruled firmer than ever to-day, and prices advanced for cash and on time. Gold opened at 29.25, and closed at 29.35 cash, but at 2 o'clock 50,000 pats were sold for end of month at 29.40.

Cedulas look as if going to par and touched 90 to-day. How many years have elapsed since the stock was at this price would take up some time to study our files. Suffice it to say that the stock never seemed in better position than at present; whether it be our earnings or new capital, or accumulation of capital, but certainly there is no stock in the market to-day for all the money offering. People who never before moved out of a certain list of bonds &c. are now going into National Bank Shares, which seems the cheapest stock in the market, and by the slightest push of speculators may be put up to 80, since there is positively no other stock in the market to dabble in.

Nat. Bonds, one small sale at 83; the price paid here is equal to about 71½ gold. Provincial Bonos are at a premium, and Nat. Bank Shares at 74. This stock pays a dividend of 3 pats gold per share on March 1st next.

Exchange is a trifle better, bills passed at 49⅝, and francs 5.25.

The news from Europe about wool is very bad, and shipments, they say, leave a loss of 100 fres gold per bale.

We received by the mail a circular from London announcing that Mr Francisco Torrome has taken into partnership Miguel Raggio y Carneiro and F J Torrome jr., and the business in London, with branch in Liverpool, will henceforward be carried on under the style and firm of Torrome, Son & Co.

The retirement of Don Manuel Aguirre from the Water Board has given rise to much remark, and it is hoped the Minister will not accept the resignation, as there are few men in this city better qualified for the post than Sr Aguirre, and it is such men should also be on the Municipality, who, being in very independent circumstances and having travelled abroad, have time and inclination to attend to city affairs.

The report of the Eastern Argentine Railway Co. meeting in London, which we published in our last, was the talk of 'Change to-day. The amount due on the guarantee is certainly very large, but it is to be regretted that the directors and shareholders, in view of the war last year &c., did not wait a little longer, as the Government was paying off the guarantee by degrees. The affair is one of the most serious for the credit of the nation, and will, of course, have one good effect, namely, to stop all further Government guarantees on railways &c.

Captain Ellis, Commander of the Galileo, was welcomed on 'Change; he has brought us back many old friends and some splendid prize English cows.

Merchants and others may not be aware of the fact that every night from 8 to 9 o'clock there is now a species of demi semi Bolsa carried on, and a very fair muster of brokers, and business also carried on. At first it was thought the brokers met there after dinner to smoke a cigar and have a look at the girls, but buying 500 Nat. Bank Shares, and selling gold cash and on time shows what can be done at that late hour. Why not open the Bolsa every night from 9 to 10 o'clock; it would be a capital move, since it would be a step ahead of London, Paris, Dublin or New York.

Mr F Pommez has been elected the new President of the Bolsa with Don Julio Gandara treasurer, both excellent men, and we have no doubt the affairs of the Bolsa under their management will progress. The 4 o'clock closing rule of the Bolsa gives great offence to the barraqueros and wool men, but it will add ten years to their lives, and we must save them from themselves, whose rule of life is "late to bed and early to rise", which of course, if business does not give millions every season cuts off at a very early age.

In our report on the National Bank by mistake we called the Gualeguay branch the Gualeguaychu branch, which we now correct. The manager of the flourishing Gualeguay branch is Mr Sastre, and it is really worthy of note how immensely the business of the National Bank has increased in its branches. The business of the Bank through the agency of these branches now spreads over the whole Republic, and it is really remarkable how cheap the shares are in the presence of such a splendid business.

The City Improvement Works are the talk of the Bolsa; most parties think that the Government should not throw overboard Mr Bateman, but continue the works under his guidance. It is said that 4 millions fuertes will finish sufficiently to make the works a source of revenue, but Mr Medici we hear offers to conclude them for 86 millions, which offer is now before the Government. The present cost of the works is 262 millions m/c of an estimate for their total completion of 850 millions. These figures are of course out of all proportion with the size and population of the town. What the Government must do, if it intends to conclude the works on its own account, is to retain Mr Bateman to see that whatever is done is done properly, and possibly Mr Bateman on a due representation would reduce his commission, which appears to us large.

On 21st April the Government sells some more public lands, but so wretchedly worded is the notice in the papers that really no one can say whereabouts the land is. We trust Minister Demaria will see that proper intelligible notice of this sale is published in the papers.

We learn from Bragado that Messrs H Roux & Co. have opened a new barraca in that town. The firm has had 15 years wool experience in this market.

The Post Office gives notice that now the mails for Montevideo close at 5 o'clock, and that a Post Office clerk will be at the agency to receive the letters; a move in the right direction.

Friends in from the camp bring the glorious news that the works of the Pergamino branch of the Western Railway are now being pushed ahead most vigorously; this is good news for parties who have lands out at Rojas, Melincue, Lincoln, and Venado Tuerto, which latter place will be only ten leagues from the Pergamino Station.

The sale of 3,500 qq. jerked virgen beef, deliverable to 10th March for Porto Cabello, is reported at 49 rls. on shore.

The total arrivals of wool by rail and carts at the North and South Plazas in the month of January was as follows:—

Plaza Once	343,760 arrobas.
Plaza Constitucion	599,080 "
Total	942,840 arrobas.

The total arrivals of wool at the Plaza Once from Oct. 1st to Feb. 1st was 1,716,896 ar. It will be seen by the foregoing that the wool arrivals during January were stronger in the South than in the North market.

The National Government has bought of the Oriental Government the steamer Presidente for a ponton to anchor at Patagones.

It may interest Minister Cortinez and others to hear that the U. States revenue for 1880 almost averaged one million pats gold per day. Judged by such a revenue the U. States really owes nothing.

Mr J M Gonzalez has been named to the Direccion de Rentas to succeed Mr Sastre, who goes into the National Bank.

Mr Whelan of Rodriguez was welcomed on Change and warmly congratulated on the sale he made this morning of his wool, Messrs Duggans brokers, at 125 m/c p. ar. The buyers state that this is the finest lot of wool that comes in from the north now-a-days, and had it been sent in last November, would have fetched 160 m/c; we vote Mr Whelan a gold medal for such great superiority in a line where only care and industry can win; as an Irish sheepfarmer, Mr Whelan is a credit to us, and it affords us much pleasure to call especial attention to enterprize so successful and so deserving. Mr Cadmus, the severest buyer in the market, bought the wool; we want more Whelans in the Plate.

The Dago, Capt. Haddock, cleared to-day taking 2400 bales.

Shipbrokers complain of the very little cargo offering at the moment.

In coal no sales to report; the brokers report that Messrs Forrester & Co have nine cargoes coal in port and one cargo of pine, which we believe was sold to-day.

Mr Downing, who has returned in the Galileo, was welcomed on 'Change to-day.

Respecting the hide market we have the following—

Stock of salted and dry River Plate and Rio Grande hides on 31st Dec. 1880 and 1879—

	1880	1879
Antwerp	247,994	20,850

Excess in 1880		349,585

Sharp at 4 o'clock the Bolsa closed to-day; the heat was terrific and the crowd great, but all were relieved by being able to get off to the suburbs early.

The Marrianne Greaves was chartered. About 60 days demurrage have ensued and now the Captain cannot get a cent out of charterers, in form of indemnity or demurrage. Should Captains not be warned against falling into such traps?

The English papers report the following:—

"Two torpedo boats of the Batoom type, built for the Argentine Government by Messrs Yarrow & Co., were tested at the measured mile on the Thames the other day, when their respective speeds in fighting trim were found to be 19·9 and 19·8 knots. These boats are of special design, and have been constructed under the superintendence of Captain Hunter Davidson. They are 100 feet in length, and will shortly start across the Atlantic for South America.

"The trials which have lately been carried out by the War Office to test the fitness of the Spanish and South American mules for draught purposes have proved so far successful that measures are being taken for substituting mules for horses throughout the service in transport work.

"The str. Villa de Rio Janeiro, from Havre for Rio de Janeiro, put into St. Nazaire Roads on December 21st with a warp entangled with her screw. She sailed the following day for her destination.

"The Douro (Motta), from Para for Lisbon, put in to St. Michael's leaky on December 13th. She is in quarantine, moored at the entrance of the breakwater. Cargo, lumber and hides.

"The str. Henri IV, (Lehuby), arrived at Havre from Brazil, reports that a fire broke out in her orlop deck at 1 a.m. on December 27th; holes were made in the deck, and at 7 a.m. the fire was completely extinguished.

"The str. Nio, from River Plate, arrived at Bordeaux on December 28th. Some part of cargo discharged is slightly damaged. She discharged part of her cargo at St. Vincent (C. V.) to repair shaft. (See paragraph in *European Mail* of Dec. 9th.)

"The Anna, from Hamburg for B. Aires, put in to Falmouth on Jan. 4th, for water."

The following was the position of the Chilian Debt in the London market on 31st. Dec. 1880—

	Issue.	Due.	Price.

Herapath's Railway Journal gives the following about the Central Argentine Railway: "The traffic for the four weeks ending Oct. 31st, on the same mileage, is £21,219 against £12,907 in the corresponding period. From Jan. 1st to Oct. 31st the aggregate is £190,709 against £148,347. These splendid traffic returns must make the Government guarantee a nominal advantage, if it is not a disadvantage."

The *Times* contradicts the report that Mr Brassey has bought a large tract of territory in the United States. Mr Brassey's fortune amounts to over 7 millions sterling, and it is to be regretted that with the great connection he has had with the Plate he has never bought some of those large estancias at times offering in the market, stocked and fenced it, and proved to his friends in London what capital, when well invested, in River Plate estancia property can give.

We remind farmers and others of Mr Lysandro Billinghurst's splendid sheep auction this week on the Gorostiaga property; the sheep are some of the very best in the country, and number 20,000. We hear that an offer of $40 m/c has been made for the whole lot and declined. Cattle 'al corte' are, however, at the moment in greater demand than sheep, owing to the number of new estancias starting up on all sides in the new camps.

Messrs Thompson & Co., shipbrokers of Rosario, in their excellent report for the month, give the following exports since 31st December, 1880:—

Rosario, Jan. 31st, 1881.

472 salted ox and cow hides
19,376 dry ox and cow hides
1,095 dry horse hides

15 tons barley
202 bags bran
6 cases feathers
407 bars copper
1,450 tons bones
82 tons bone-ash.
138,911 horns
1,565 bales hay
2,424 packages silver ore
688 bars tin
240 bags bark
650 tons quebracho wood
4 bags wool
100,000 kilos old iron

Vessels disengaged—

Ital. barque Stella Gazzolo, 449 tons, Cardiff
Ital. brig Patagonia, 50 tons, Genoa.
German brig Magnet, 283 tons, Hamburg.

Freights—

Since our last a decline has taken place with steamer rates in consequence of the rates having been reduced from Buenos Aires per steamers.

Wheat—

The millers continue buying up this grain freely, and we believe the export this season will be large in flour for the Brazils. The price demanded by holders of wheat still prevents exporters buying, but this is soon expected to change.

We close the month with 13 charters and 3 vessels disengaged in port.

We annex a tabulated statement of the exportation from the port of San Nicolas commencing from 1st Oct. last up to 15th instant, which we trust will be found of interest.

Exports from San Nicolas from Oct. 1st, 1880, to Jan. 15th, 1881—

6,084 salted ox and cow hides
62,604 dry ox and cow hides
2,610 dry horse hides
398 pipes tallow
6,919 bales wool
1,514 bales sheepskins
89 bales sundries
43 bales hair
990 bags flour
4,580 bags bran
241 tons jerked beef
270 tons quebracho wood
30 tons bones
237,523 horns

Export for transhipment at Buenos Aires since Oct. 1st, 1880, to Jan. 15th, 1881—

1,201 salted ox and cow hides
141 salted horse hides
10,592 dry ox and cow hides
64 pipes tallow
2,796 bales wool
1,492 bales sheepskins
22 bales sundries
25 bales hair
300 bags flour

THE QUEEN'S SPEECH.

The session of Parliament for 1881 was opened by Royal Commission on January 6th. The following is the speech, which was read by the Lord Chancellor—

My Lords and Gentlemen—

I have called you, at a period earlier than usual, to the resumption of your labours, as some affairs of more than common urgency demand your attention. My relations with Foreign Powers continue to be friendly and harmonious. The main question relating to the frontier between Turkey and Montenegro has been settled. The Powers are now engaged in communications which have in view the determination of the frontier between Turkey and Greece. Some important portions of the Treaty of Berlin, which have so long remained without fulfilment, continue to form an object of my anxious attention. A rising in the Transvaal has recently imposed upon me the duty of taking military measures with a view to the prompt vindication of my authority; and has of necessity set aside for the time any plan for securing to the European settlers that full control over their own local affairs, without prejudice to the interests of the natives, which I had been desirous to confer. I regret that the war in Basutoland still continues, notwithstanding the efforts of the Cape Government. It would cause me much satisfaction if a suitable occasion should present itself for friendly action on my part with a view to the restoration of peace. The war in Afghanistan has been brought to a close, and, with the exception of the Candahar force, my troops have been recalled within the Indian frontier. It is is not my intention that the occupation of Candahar shall be permanently maintained; but the still unsettled condition of the country, and the consequent difficulty of establishing a Native Government, have delayed for a time the withdrawal of the army from that position. Papers on the several subjects to which I have adverted, as well as further correspondence on the Military Estimates of India, will be presented to you.

Gentlemen of the House of Commons—

The estimates of the Services of the coming year are in a forward state of preparation, and will be speedily laid before you.

My Lords and Gentlemen—

There has been a gradual, though not very rapid, improvement in the trade of the country; and I am now able to entertain a more favourable expectation of the Revenue for the year than I could form at its commencement. The anticipation, with which I last addressed you, of a great diminution of the distress in Ireland, owing to an abundant harvest, was realised; but I grieve to state that the social condition of the country has assumed an alarming character. Agrarian crimes in general have multiplied far beyond the experience of recent years. Attempts upon life have not grown in the same proportion as other offences; but I must add that efforts have been made for personal protection, far beyond all former precedent, by the police, under the direction of the Executive. I have to notice other evils yet more widely spread; the administration of justice has been frustrated, with respect to these offences, through the impossibility of procuring evidence; and an extended system of terror has thus been established in various parts of the country, which has paralysed almost alike the exercise of private rights and the performance of civil duties. In a state of things new in some important respects, and hence with little of available guidance from former precedent, I have deemed it right steadily to put in use the ordinary powers of the law before making any new demand. But a demonstration of their insufficiency, amply supplied by the present circumstances of the country, leads me now to apprize you that proposals will be immediately submitted to you for entrusting me with additional powers, necessary in my judgment not only for the vindication of order and public law, but likewise to secure, on behalf of my subjects, protection for life and property, and personal liberty of action. Subject to the primary and imperious obligations to which I have just referred, I continue to desire not less than heretofore to prosecute the removal of grievance and the work of legislative improvement in Ireland as well as in Great Britain. The Irish Land Act of 1870 has been productive of great benefits, and has much contributed to the security and comparative well-being of the occupiers of the soil, without diminishing the value or disturbing the foundations of property. In some respects, however, and more particularly under the strain of recent and calamitous years, the protection which it supplied has not been found sufficient, either in Ulster or the other provinces. I recommend you to undertake the further development of its principles in a manner conformable to the special wants of Ireland, both as regards the relation of landlord and tenant, and with a view to effective efforts for giving to a larger portion of the people by purchase a permanent proprietary interest in the soil. The legislation will require the removal, for the purposes in view, of all obstacles arising out of limitations on the ownership of property with a due provision for the security of the interests involved. A measure will be submitted to you for the establishment of county government in Ireland, founded upon representative principles, and framed with the double aim of confirming popular control over expenditure, and of supplying a yet more serious want by extending the formation of habits of local self-government. Bills will be laid before you for the Abolition of Corporal Punishment in the Army and in the Navy. You will be asked to consider measures for the further reform of the Law of Bankruptcy; for the Conservancy of Rivers and the Prevention of Floods; for revising the constitution of Endowed Schools and Hospitals in Scotland; for the renewal of the Act which establishes secret voting; and for repressing the corrupt practices of which in a limited number of towns there were lamentable examples at the last general election. I trust that your labours, which will be even more than usually arduous, may be so guided by Divine Providence as to promote the happiness of my people.

The Address in answer to the Speech from the Throne was moved by Lord Carrington, who referred at some length to the several subjects mentioned in Her Majesty's Speech.

MONTEVIDEO.

Dear *Standard*,

McEachen has resigned, and none lament his departure. Great things were expected from the ex-Minister as he entered office: his name was a guarantee of the stock he descended from, and verily in the first days he displayed an energy that totally forsook him later on. Good will is not enough in a Minister, and Orientales hopefully anticipated from him what they could not pardon in Latorre—an energetic policy. Thus Mr McEachen descends from the pinnacle of the Government House, in the midst of friends who sympathize with his very best intentions and commiserate in view of his total lack of success. It is a very trying circumstance for a man to meet friends who placed all their hopes and interests in his hands, certain of his abilities in watching and fostering them. Far better for a man to enter the Cabinet with a reputation of mediocrity than with one of talent: nothing is expected from the former, whilst the latter has to carry out the wildest anticipations; and this was the case with McEachen.

The movements of Latorre have been exciting some attention: there is not the slightest doubt that Yaguaron is the asylum of political refugees who found this place uncomfortably warm after the dictatorial regime: considering that these men lived on the State and had no other means of existence, it can be easily understood why people here are on the qui-vive at the slightest rumor of movements on the Brazilian frontier. The papers say that Latorre has faithfully promissed to hang Santos and two other gentlemen, but such reports as these are all moonshine, something similar to those which preceeded the June peace settlement on your side of the river. Orientales dislike Latorre as much as Argentines hate the very memory of Rosas: both men have been remarkable for one circumstance, and that is the complete security of life and property in the camp during their regime. Naturally, security of life and property is no compensation whatever for the loss of liberty: and Argentines and Orientals brand the despot more than the criminal.

Sarmiento is amongst us. He looks slightly huffed: he is otherwise unchanged. Originality stamps him as unique in South America. We have welcomed him as his talents and his fame deserve. The great educationist attended a bull-fight, where he may have sarcastically remarked that those who most criticize the amusement are those who muster strongest; just like in Brussels with the Mannequin—everybody visits this curiosity, and all agree after close investigation that the monument should not be allowed to be exhibited in public. The friend of Horace Mann had ample opportunity to visit the schools, attend distributions of prizes and form an idea of Oriental progress in the educational branch: there is certainly not a sublimer sight on earth than that of an army of little children, all eager to learn, with their books under their arms; education is the hope of the country—we want more masters and fewer soldiers—more Sarmientos and fewer Latorres.

Voltaire.

THE LOCUSTS.

To the Editor of the *Standard.*

Sir,

Seeing you have in earnest taken up the question of how locusts can be most effectually destroyed, I beg that you will make known the fact that 'Clarke's Concentrated, Carbolated Creosote Liquid' will kill millions of them, if applied in the early stage of their existence, when they are marching on the ground like a devastating host.

The mode of application may be most conveniently carried out as follows:—Mix to one gallon of the 'Four C's Liquid' about fifty gallons of water, put the mixture into a watering can with a fine perforated rose, sprinkle the insects well, and this will prevent them from doing further injury; they can then be swept or shovelled into heaps and burned. This liquid is non-injurious to plants or vegetable life, and, I believe, can be had at Mr. Seedorf's botica, Calle Reconquista, at a very moderate price.

I have destroyed every 'ormiguero' inmy quinta with it, and as a 'sheep dip' I do not know its equal. It never fails to cure, is non-poisonous and can be mixed with cold water.

Every sheepfarmer should have a stock of this invaluable 'Four C's Liquid.' With it he can cure his sheep of scab and foot-rot, and the liquor, after being used in the sheep-bath, can be applied to the destruction of locusts, ants, disinfecting pig-styes, dung-heaps, and water-closets, as it is a perfect disinfectant.

I received a cart horse the other day. His ear was fly-blown, and he had a fearful wound on his shoulder. In two weeks he was cured by this wonderful mixture.

Yours truly,

Francis Younger.

THE GOWER BELL TELEPHONE.

The attitude of the English Government towards the telephone is peculiar. By the Act of 1863 and subsequent Acts of '68 and '69, the Government acquired a monopoly of the telegraph, and inaugurated the now well-known system of postal telegraphs. It now claims that the telephone companies have no right to erect and operate the telephone lines without a Government license, and bases this claim on an interpretation of the word 'telegraph,' which shall make it include all forms of communication by means of a wire and electricity of magnetism. Naturally the companies resist this claim, and the courts are called upon to decide. The first trial is now in progress, having been begun November 29th, in the English Court of Exchequer, and from the valuable franchises involved, and the eminent scientific men who are retained as witnesses on either side, the case is exciting great public interest. The London *Engineering*, the recognixed scientific authority (Vol. XXX. No. 778, Nov. 26), devotes a column to the discussion of the question, which concludes as follows:—'Whatever the result of the trial, the value of telephonic communication is now so well appreciated in this country, that the public will require the continued existence and extension of telephone exchanges. It is also becoming recognized that the best form of Bell telephone for exchange purposes is the Gower-Bell, now employed in the very successful Glasgow exchange of Mr. D. Graham, in conjunction with a radial microphone transmitter, similar to that of the Crossley. Indeed, one of our large railway companies, after reluctantly abandoning the ordinary Bell form of instrument, have adopted the Gower-Bell with alacrity. In France it is the favored type, and President Grévy has his study connected by it to the Senate, Chamber, and the residences of the ministers. As a proof of its powers, we may mention that vocal communication was seecently carried on by its means between Cairo and Alexandria, a distance of 260 miles, although the other ten wires, carried by the same posts, were busy working Morse instruments.'—December 15, 1880.

GOVERNMENT Mortgage Bank

Offices 111 CALLE SAN MARTIN

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It gives Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortisation fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly

Mortgage for 20 years 117 days, 8 per cent interest 2 per cent. amortization, and 1 per cent commission.

Series B—Quarterly

Mortgage for 27 years 270 days; 8 per cent interest, 1 per cent amortization, and 1 per cent commission.

Series C—Half-yearly

Mortgage for 20 years 190 days; 8 per cent interest, 2 per cent amortization, and 1 per cent commission.

Series D—Half-yearly

Mortage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sum stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half-yearly mortgagers shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 21st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 15th January, and from 30th June to 15th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank

Cedulas are taken in deposit from 1 Cedula of 50 Patacons the lowest amount issued by the Bank) upwards.

Notice to the Mercantile Public.

The Post-Master General and Director of Telegraphs deems it his duty to let the Public, especially the Mercantile portion of it, know—

1st. That, in accordance with the regulations of this department, all complaints respecting the mislaying or loss of letters are immediately attended to, and diligent search made for the missing correspondence, and steps taken to punish those in fault, if such there be.

2nd. That anonymous complaints through the Press will not be taken as a basis for any steps whatever, nor will any inquiry be instituted on such ground.

3rd. That, notwithstanding, a morning paper of this city having referred, in a recent issue, to loss of correspondence in August last (a time when, as everybody knows, the Post and Telegraph Department had not been reorganized) the three merchants alluded to are requested to lay particulars before this Department, so that the steps prescribed by the Regulations may be taken forthwith.

4th. That all persons having any complaints pending are, in like manner, requested to at once lay them before this Department, in any shape, provided that they be signed, and they shall meet immediate attention, as it is the first duty of the Department to inspire confidence in the public, and especially the mercantile public, and to omit no possible effort to bring the truth to light in all cases.
